

What's new?

For the past eight years I have used Adobe Connect as my online platform. This year 2022-2023, I will be using Zoom as it offers a few more features than Adobe Connect and also helps me to keep costs down.

Are you an active-duty military family? We appreciate you! My father served in the Navy during the Vietnam War. To honor all of you, we are offering an additional 10% off the already reduced semester rate on ALL of your classes. That will be a 20% savings for your family. Send in a copy of your military ID with your registration form.

We were homeschoolers back in the eighties and we want to help keep things affordable. If you invite another family to sign up for a class, you AND the new family may receive an additional 10% off the already reduced semester rate off ONE class for the youngest student. You do need to let me know who the new family is.

You may take ONE of the discounts listed above.

Finally...the writing classes are offered live online OR on-demand. For those families who want the instruction but cannot meet during the live sessions, then on-demand classes will allow you to receive the same instruction and the same thorough feedback from me as the students who meet live, but on your own schedule. These classes may be started after August 22, 2022 and must be completed within one year.
